About UNAIDS

Serving Countries and Communities to End Inequalities and AIDS

We, the Joint United Nations Programme on HIV/AIDS, lead the global effort to end AIDS as a public health threat by 2030. By placing the Sustainable Development Goals (SDGs) related to reduction of inequalities at the heart of our work, we lead the global response to AIDS by: (i) maximizing equitable and equal access to HIV services, (ii) breaking down barriers to achieving HIV outcomes, and (iii) integrating efficient HIV responses into wider health and protection systems.

We are committed to creating an equal, safe and empowering workplace culture where all people in all their diversity thrive. We live our values of Commitment to the AIDS Response, Integrity and Respect for Diversity. You can access the full UNAIDS Competency Framework here.

Organizational Context Zambia Country Office

The UNAIDS Zambia Office provides leadership and coordinates the expanded UN system response in Zambia towards ending AIDS as a public health threat by 2030. Using an equity and equality lens as part of the Sustainable Development Goals (SDGs), the Zambia Office scales up HIV services focused on key populations, and other groups living with or at risk of HIV (i.e. women and girls in all their diversity, people with disabilities, indigenous peoples) and in locations most at risk. The Zambia Office promotes effective use of strategic information to better understand and track the epidemic and its trends, and to measure progress and sustainable impact of the response in Zambia. It supports efforts to strengthen the capacities of communities and their meaningful engagement in health, social protection, human rights and social justice mechanisms, and gender transformative approaches, and provides intellectual support and technical guidance as necessary to partners, communities, civil society organizations and policymakers.
